SUMMARY

Versatile Full Stack Web Developer skilled in creating dynamic and user-friendly web applications with a focus on providing good user experiences. Proficient in HTML, CSS, JavaScript, React.js, Next.js, Node.js, MongoDB, Firebase, and Express.js. Eager to contribute dynamic and user-friendly web solutions, while actively pursuing continuous learning and innovation in the field.

SKILLS

Languages: JavaScript, Java, Typescript, HTML.

Frameworks &Libraries: React, Next Js, Express Js, Tailwind CSS, Bootstrap

Tools: Node Js, Git, Github, Windows, VS Code, Postman

Technologies: Redux, Context API, Rest API, JSON, DOM, CSS, AJAX

EXPERIENCE

2022 - Present

The Reciprocal Solutions | Fullstack Web Developer Intern   Coimbatore, India.
- Internships provide opportunities to develop technical skills, gain real-time experience, enhance teamwork, communication, adaptability, critical thinking, and time management — all enriching future career prospects.
- During my internship, I successfully designed and developed dynamic tourist, taxi, and real estate websites.
- Applied a Full Stack approach, leveraging technologies like HTML, CSS, JavaScript, Node.js, Express.Js, Firebase, Bootstrap and MongoDB.
- I designed dynamic admin panels, manipulated the DOM tree, handled AJAX requests, implemented Firebase for authentication, and dynamically rendered content from the database.
- Achieved seamless user experiences and efficient functionalities, showcasing adaptability and proficiency in diverse web development projects.

PROJECTS

React Js (Dec 2022)

Social Media Application - Space Y   https://github.com/Vaseekaran-S/space-y
- Space Y is a social media web application in progress, built using React, Redux, MongoDB, Firebase, and Express.
- With a dynamic user interface, seamless data storage, real-time updates, and secure messaging, it redefines online social interactions.

Next Js (Aug 2023)

E-commerce Website - Cholan Shop   https://github.com/Vaseekaran-S/cholan-shop
- Cholan Shop, an E-Commerce site in progress, combines the power of Next.js and Redux with MongoDB for robust data management.
- The implementation of Tailwind CSS ensures a sleek and responsive design, underscoring a commitment to cutting-edge technologies for an innovative and seamless user experience.

Next Js (Oct 2023)

E-commerce Website Admin Panel - Cholan Store   https://github.com/Vaseekaran-S/cholan-shop-admin
- I also built a unified admin panel for Cholan Shop using Next.js, Redux, Typescript, MongoDB, and Tailwind CSS.
- This cohesive approach ensures smooth communication between the Cholan Shop E-Commerce site and its admin interface, creating an integrated and efficient system.
